## PROJECT

## WHITE DOVE

Interior designer Geeta Krishna of Divine Proportion Interiors has given her home in Mumbai a chic, contemporary and colour rich look.

Geeta Krishna, principal designer and managing partner of Divine Proportion Interiors, established in the year 2012, has developed a hefty design portfolio over the past 10 years. Divine Proportion Interiors is known for its authentic design, quality craftsmanship, and concise approach.

Her project, White Dove, which is her family home, is designed with an eye for detail, with major inputs by her husband to keep up the functionality of the overall design.

# ARCHITECT ICON

## THE MASTER MODERNIST

Alvar Aalto was a Finnish architect and designer, who created his own style from his interpretation of modernist architecture that relied on the use of local materials with a focus on functionality.

"We should work for simple, good, undecorated things, which are in harmony with the human being and organically suited to the little man in the street." -

**Alvar Aalto**

Hugo Alvar Henrik Aalto was a Finnish architect and designer. His work includes architecture, furniture, textiles and glassware, as well as sculptures and paintings. He never regarded himself as an artist, seeing painting and sculpture as "branches of the tree whose trunk is architecture. Aalto's early career ran in parallel with the rapid economic growth and industrialization of Finland during the first half of the 20th century. The span of his career, from the 1920s to the 1970s, is reflected in the styles of his work, ranging from Nordic Classicism of the early work, to a rational International Style Modernism during the 1930s to a more organic modernist style from the 1940s onwards.

**NEW LAUNCH**

## **PROMISE OF SAFETY**

Simpolo Ceramics has introduced Ricco Collection tiles made with IM+ Technology that comes with a promise of safety and a unique posh surface.

Simpolo Ceramics has carved its niche as a consistently growing organization with sheer innovation and passion rooted in simplicity. They are known for their innovation and newness in each component of tile designing. The brand has been constantly working on changing and innovating. Their latest technology and innovations in concepts and designing, with a highly customized product range, has made them the leading brand in the world.

‘IM+ Technology’ is their latest technology that removes uncertainties or doubts involving safety within the home and is being used for the first time ever in India. The technology helps the product surface repel any liquid and does not allow unwanted or harmful living organisms to stay or grow.
