FEATURES & BENEFITS

Concepts for Designing

Step Stone by Kajaria are available in different designs and colours. As high-quality tiles, they meet the technical requirements of different standards for the production of stairs. The comprehensive concepts comprising basic, décor and functional tiles can be used for a durable and aesthetically pleasing design of the entire indoor & outdoor stair area.

Safety for Senior Citizens, Physical disables and Children

Safety is always the number-one priority. It is safe enough for senior citizens, physical disables and children. In addition to slip resistance in compliance with the applicable standards, Step Stone Vitrified tiles offer particular durability and also easy-care properties. These full-bodied tiles come with bull nosing and tread lines that make them skid-resistant and much more safer than conventional stairs.

Long Lasting & Easy Maintenance

Step Stone are full-bodied vitrified tiles, which means they absorb very low water and are impervious to weather or wear and tear induced damage. Fit them and forget them for years of trouble free performance.

Easy Installation

No more handling issues. No more labour-intensive on-site installations, no more wastage costs. Kajaria Step Stone can be easily and speedily installed on site. Chipped and worn out staircases, constant need for polishing and repairs, are all things of the past.

Prefabricated stairs with bearing surface insulated to reduce impact sound

Kajaria Step Stone Steps are available in 300x1200mm. These can be used in full size and in cut size as depending on the requirement. While the riser tiles are available in a convenient size of 200x1200mm. For stairs requiring higher width, cut - contrast shades can be used on either side to get the wider stairs.

PACKING DETAILS

S. No.	Dimensions (mm)	No. of tiles / box	Coverage Area
1.	200x1200	6 Pcs.	1.44 Sq. Mtr.
2.	300x1200	4 Pcs.	1.44 Sq. Mtr.
3.	600x1200	2 Pcs.	1.44 Sq. Mtr.

* Vitrified tiles have resistance to most of the stains/chemicals but, it is recommended to take due care while laying and for day-to-day maintenance.
Resistance to acids & alkalis (Exception Hydrofluoric Acids & its Compounds)

- Colours in the catalog are as accurate as printing process allows
- Sizes mentioned in the catalog are the nominal sizes only.
- Conforming to ISO requirements, technical specifications for Kajarja tiles are applicable only for 1st quality tiles.
- Please inspect all tiles prior to installation; company will not entertain complaints, once tiles are laid / fixed.
- For better laying, please follow the instructions on the packaging box.

READY TO INSTALL VITRIFIED STEPS

Frequently Asked Questions

Why Kajaria Step Stone is the new benchmark in the world of staircases?:

Natural stones have been the mainstay of staircases. These stones are not easy to install and are slippery. Moreover, due to lack of uniformity in size, there is a higher wastage cost. Kajaria Step Stone is a revolutionary tile which sidesteps all the complications associated with natural stones. Also, Kajaria Step Stones comes in a convenient size of 300x1200 mm Step with bull nosing and tread lines, 200x1200 mm Riser and 600x1200 mm Landing area tiles in matching colour. This size ensures it meets the design requirements of most staircases.

How Kajaria Step Stone is different from others?

Safety and durability are the cornerstones of Kajaria Step Stone. As a full-bodied Vitrified Tile, it encompasses a high degree of strength with antiskid and stain resistant properties, which makes it a safe and excellent choice, especially for people with ambulant disabilities.

What are the advantages of full bull nose edges?

Kajaria Step Stone is a Full body Bull Nosed vitrified step tile. The unique bull nosing makes the staircase safer and comfortable to step on. It also helps to prevent chipping along edges and gives the staircase an aesthetically pleasing look.

What is the purpose of embossed tread lines?

The embossed tread lines provide extra grip when stepped on, especially near the edges of the steps. This ensures higher safety, preventing people from falling down and risking injuries.

What are the benefits of thicker tiles?

For staircases, it makes sense to have strong tiles which Kajaria Step Stone is owing to its thickness. It ensures safety, lends confidence and assures replacement to natural stones.

What are the other benefits of using Kajaria Step Stone?

The ease and speed of installation, low water absorption (<0.05%) with advanced stain resistance technology. Also due to its high abrasion resistance it provides 10 times more surface protection than natural stones.
