## VC

Hard coat technology refers to a process used in the manufacturing of glazed vitrified tiles. It involves applying a durable and scratch-resistant surface to the tiles, which enhances their longevity and performance. The hard coat technology provides tiles with a protective layer that makes them more resistant to wear and tear, stains, and abrasions.

## DESIGN, PATTERN & SHADE VARIATION GUIDE

Current development efforts have made ceramic tiles to resemble and look authentically identical to natural material (Stone, Wood, Fabric), and it has become increasingly difficult in many cases, to distinguish between two.

Recognising this situation, it is necessary to be informed on the grade of design & pattern variation that is expected from these products. As a general reference, the design & Pattern guide below classifies a scale of ranges according to the degree of variation.

High Definition Image

While laying the tiles please follow the arrow on the back of the tiles.  
 For removing the wax from the surface of the tiles please use the soft cotton cloth for rubbing with any boric/talk powder

## VEILCRAFT (VC) SHIELD

Not only look and style; the buzz word for the Gen X tile is timeless elegance. Here comes the revolutionary patented "VeilCraft (VC) Shield" technology, a "high abrasion resistant glaze composition", known as VC (VeilCraft) Shield. This is the first ever patented technology in Indian Ceramic Industry. This not only gives you the perfect aesthetics for your space but also the lifelong protection to your floor.

### Result Of The abrasion test at 25,000 revolutions as per the PEI Methodology

### Patent Certificate for "High Abrasion Resistant Glaze" applied on VC Shield Tiles

## PACKING DETAIL FOR 600x1200mm GVT TILES

Nominal Size(mm)	Thickness(mm)	Average weight per carton (Kgs)	No. of tiles per carton	Coverage area per carton
600x1200mm	9	28.0 (+/-0.2) Kgs	2	1.44sq.mtr. / 15.50sq.ft.

## TECHNICAL SPECIFICATION FOR 600x1200mm GVT TILES

Characteristics	Requirement as per IS 15622 :2017 E ≤ 0.08 Group B I a	Requirement as per ISO 13006:2018 ≤ 0.5% Group B I a	Our Values	Test Method
